15	Ensure the Message Text is " Unable to read Setup file ".	_____
16	Dismiss the Error message.	_____
17	Ensure the Initialization Failure Error message is displayed.	_____
18	Ensure the Title line displays the text " Initialization Failure ".	_____
19	Ensure the Message Text is " Initialization Process has Failed ".	_____

Step	Test	Result
20	Dismiss the Error message.	
21	Ensure the Application Closing Information message is displayed.	_____
22	Ensure the Title line displays the text " Application Closing "	_____
23	Ensure the Message Text is " RVMasterLog Closing "	_____
24	Dismiss the Error message.	_____
25	Ensure the application is not launched	_____

Program Launch 1

Step	Test	Result
	This tests the launch of the application with a valid RVMSup.sup file present in the Application folder. There is no .stg file, no RVM Data or RVM Logs folders, and registration has not been completed.	
1	If present, delete the {Program Folder}\RVMSup.sup file.	
2	Ensure the {Program Folder}RVMSup.sup file exists.	_____
3	If present, Delete the: "C:\Users\Hew\AppData\Local\RVM", "C:\Users\Hew\AppData\Local\RVM Data"; and, "C:\Users\Hew\AppData\Local\ RVM Logs" folders.	—
4	Launch the application.	
5	Ensure the splash screen is displayed.	_____
6	Ensure the splash screen is automatically closed after 5 seconds .	_____
7	Ensure the Nag Screen is displayed.	_____
8	Select the <Yes> button.	
9	Ensure the Nag Screen is dismissed.	_____
10	Ensure the Registration dialog box is displayed.	_____
11	Select the <Cancel> button.	
12	Ensure the Registration dialog box is dismissed .	_____

Step	Test	Result
13	Ensure the Main application form is displayed.	_____
14	Ensure no messages have been displayed.	_____
15	Select the Settings menu item.	
16	Ensure the Settings Dialog Box is displayed	_____
17	Ensure the Application Data Path Edit box contains the text “C:\Users\Hew\Documents\Programming\Programming Projects\VB2017\RVMasterLog\Working Copy\bin\Debug”	_____
18	Ensure the RVM Path Edit box contains the text C:\RVM	_____
19	Ensure the RVM Data Path Edit box contains the text C:\RVM\Data	_____
20	Ensure the RVM Logs Path Edit box contains the text C:\RVM\Logs	_____
21	Select the <OK> Button to close the Setup Dialog box.	
22	Select the File Exit Menu item to close the application.	
23	Ensure the Application Closing Info Information rmation message is displayed.	_____
24	Dismiss the Information message.	
25	Ensure the Application closes with no messages displayed.	_____
26	Ensure the settings file RVMSettings.stg has been created in the Application folder.	_____
27	Ensure the settings file RVMSettings.stg contains the following entries: RVMPath=C:\RVM RVMDDataPath=C:\RVM\Data RVMLogsPath=C:\RVM\Logs	

Program Launch 2

Step	Test	Result
	This tests the launch of the application with a valid RVMSetup.sup file present in the Application folder. There is no .stg file, no RVM Data or RVM Logs folders, and registration has not been completed.	
1	If present, delete the {Program Folder}\RVMSettings.stg file.	
2	Ensure the {Program Folder}RVMSetup.sup file exists.	_____
3	If present, Delete the:	—

Step	Test	Result
	<p>"C:\Users\Hew\AppData\Local\RVM",</p> <p>"C:\Users\Hew\AppData\Local\RVM Data"; and,</p> <p>"C:\Users\Hew\AppData\Local\ RVM Logs" folders.</p>	
4	Launch the application.	
5	Ensure the splash screen is displayed.	_____
6	Ensure the splash screen is automatically closed after 5 seconds .	_____
7	Ensure the Nag Screen is displayed.	_____
8	Select the <Yes> button.	
9	Ensure the Nag Screen is dismissed.	_____
10	Ensure the Registration dialog box is displayed.	_____
11	Select the <Cancel> button.	
12	Ensure the Registration dialog box is dismissed .	_____
13	Ensure the Main application form is displayed.	_____
14	Ensure no messages have been displayed.	_____
15	Select the Settings menu item.	
16	Ensure the Settings Dialog Box is displayed	_____
17	Ensure the Application Data Path Edit box contains the text "C:\Users\Hew\Documents\Programming\Programming Projects\VB2017\RVMasterLog\Working Copy\bin\Debug"	_____
18	Ensure the RVM Path Edit box contains the text C:\RVM	_____
19	Ensure the RVM Data Path Edit box contains the text C:\RVM\Data	_____
20	Ensure the RVM Logs Path Edit box contains the text C:\RVM\Logs	_____
21	Select the <OK> Button to close the Setup Dialog box.	
22	Select the File Exit Menu item to close the application.	
23	Ensure the Application Closing Info Information rmation message is displayed.	_____
24	Dismiss the Information message.	
25	Ensure the Application closes with no messages displayed.	_____

Step	Test	Result
26	Ensure the settings file RVMSettings.stg has been created in the Application folder.	_____
27	Ensure the settings file RVMSettings.stg contains the following entries: Version=001 RVMPATH=C:\RVM RVMDATAPath=C:\RVM\Data RVMLogPath=C:\RVM\Logs	_____
