Haven't got a chance to use this yet, but I wish I had one of these when we first started camping years ago.

Capture your memories!

By Jaimie Hall on October 8, 2005

Format: Spiral-bound

The Camping Journal is a great way to record your memories of your RV travels. You'll enjoy going back and reliving your travels. There's room for your own thoughts and adventures on each log page. Also, when you want to return to an area, you can look up all the amenities the campground offers, what campsite you had (or would have liked to have had) instead of trusting to memory. Also, a friend who is already traveling or thinking about doing so would be delighted to receive a Camping Journal as a gift.

Most complete log book on the market!

By Kris H. Geraths on March 13, 2005

Format: Spiral-bound

What a quality book! The cover is very sturdy and will definetly handle all your camping excursions. Pages are easy to use with places to record information I would have never thought of recording. The binding makes it very easy to use while riding down the road. I highly recommend it to any type of RV'er, weekender or full-timer. Such a value!

camping journal

By John M. Finn on March 13, 2008

Format: Spiral-bound Verified Purchase

We have been looking for a log for our avdentures, did some surfing and found this item. It seemed to fit the bill. The ring binder is a nice feature so the pages stays open to the one you want. Not enough fuel milage log pages only enough for 40 trips if you would only have 2 gas stops per trip. The trip log (campground pages) are great with a checklist and any info you can imagine that you would want to keep. The 2 things I did not like was the front and back covers they are too thin and could have been laminated (I can see my Wife and general use taking a toll on these real quick) and smaller dimensions the size of a book would have been nice instead of a small atlas.

A Great Companion

By Jim Malone on November 10, 2006

Format: Spiral-bound

The Camping Journal satisfies my need to record not only my impressions of the trip, but also the various costs incurred along the way. I know its wierd, but I get a kick out of recording all the minutia. Gives the wife something to do while we cruise the by-ways.

Good, but not great

By raquel on December 27, 2008

Format: Spiral-bound Verified Purchase

This is a great book if you looking to keep track of camp site features with a basic checkmark of yes and no. I would have liked this book much more if the pages also left extra space to write down your own thoughts and information. For example, I like to keep track of how we felt about the campsite and places that were accessible nearby, plus anything else that I want to remember about our trip to that particular area. I don't understand how they call this a journal, it is pretty much just a camp site log.

A very good way to record memories

By amazonshopper4life on August 9, 2010

Format: Spiral-bound Verified Purchase

My husband and I purchased our RV 3 years ago and I happened to stumble upon this soon after on Amazon. We have two small children and primarily use our RV for long weekend trips. This is a great way to record and journal each campground as well as preserve memories. The only downside for me is I wish there was more space for photos, I use it more as a camping scrapbook. However, it's very functional too, for RV maintenance and record-keeping.

RV Travel Log

By Butch on March 21, 2011

Format: Spiral-bound Verified Purchase

This is a good journal for keeping track of your RV expenses. Includes a section for keeping track of travel expenses, maintenance expenses, and mileage log. Also includes a detailed section for keeping track of the campgrounds and what you liked and did not like so you can determine if you want to return.

This is a very nice little book. I really like the format. I am not good at writing a long hand written note in a jounal so I don't need a lot of space. There is a nice little checklist to put down some ratings and details about each trip, just what we wanted. It looks like the materials will hold up to life in the RV. Very nice "log book" format.
